

Sinclair Broadcast Group's recent actions have infuriated me. I grew up trusting that the airwaves were sacred ground....a place from which national and local news is aired with the number one agenda first...THE TRUTH! You have dissolved that trust, Sinclair, and do you wonder why most of us watch PBS for our news? Shame on you for trying to use the free airwaves for your personal agenda. I for one will never watch any program that is under your umbrella of twisted political partisan ideology. We the people do NOT want big media controlling our airwaves! YOU the FCC need to put more controls on the ownership and responsibility of these giants! Sincerely, Sally McIntyre
